

P.G. Department of Economics
Govt. Science College, Chatrapur

Title of activity	Career Counseling Programme on “Python for Social Sciences: A Beginner’s Hands-on Introduction.”		
Date	27.07.2026		
Place	APJ Conference Hall		
No. of participants		Male	Female
Name of the resource person	Sj. Mayadhar Sethy, Doctoral Fellow (ICSSR) Nabakrushna Choudhury Centre for Development Studies		
Objectives of the event	❖ Foundation for UG and PG Economics students and staff who are new to Python, presenting complex concepts in a clear, accessible, and practical manner. ❖ The hands-on approach, coupled with relevant examples from the social sciences, to make the learning experience both interactive and highly valuable.		
Discussion point	❖ A practical understanding of Python and its applications in research, data management, visualization, and evidence-based decision-making. ❖ How Python can be used to analyze survey data, conduct social science research, automate repetitive tasks, and create meaningful visualizations. ❖ Career Opportunities where computational and analytical skills are required.		
Action taken	The department of Economics students actively participated in the career counseling programme along with the staff members		
Submitted by : Name : Signature: Date:	Dr. Prerna Panda Assistant Professor (Economics)/HOD 27.7.26
