

Annual Report for the academic year 2023-24

Department of Chemistry, Government Science College Chatrapur

The Chemistry Department of Government Science College, Chatrapur, is committed to providing advanced levels of undergraduate and postgraduate education. For this purpose, along with regular syllabus-based education, the department also encourages students to deliver seminar talks and to arrange different departmental activities like welcome and farewell functions, etc. It also plans to arrange study tours and invited talks for the exposure of students to the chemical science world.

As per the decision of the Department of Higher Education Odisha, our college has started working as an affiliated college of Berhampur University for post-graduate studies in chemical science from the academic year 2023-24.

In the academic year 2023-24, 16 students have enrolled in the first year of BSc to study Chemistry as a core subject. Besides that, almost 200 students, both from Physical Sciences and Biological Sciences, have chosen Chemistry as one of their Generic Elective courses. Also, there are 35 students in the second year and 35 students in the final year of BSc with Chemistry Honors. Apart from that, for the first time, PG courses in Chemistry were introduced, and 16 numbers of students enrolled. It is worth mentioning that the Chemistry Department is the only department which deals with all the science students of the college.

To welcome the first-year students in the department, senior students organized a welcome function on 7th November 2023. In the meeting, Dr Pramod Kumar Tripathy, Principal of the college and Dr Laxmi Narayan Sahoo, HOD were present along with the other staff of the department. The senior students have presented some welcome gifts to the newcomers and also have arranged some entertainment programs.

The inaugural seminar talk was delivered by three +3 3rd year students of our Department on 13th October 2023. Following this, seven other seminar talks were presented by students.

A national seminar on “Recent trends in chemical science” was organized by the department in collaboration with IQAC in the conference hall on 6th November 2023. The first speaker was Prof. Ashok Kumar Mishra from IIT Madras, who talked about the “Role of chemistry in sustainable development”. The second speaker was Dr Shubhankar Kumar Bose, Jain University Bangalore who gave a talk on “Application of Boron in organic chemistry”. The third talk was delivered by Dr Rajendra Singh Dhayal, from the Central University of Punjab, who gave a talk on the “Importance of nanotechnology in daily life”. Many delegates from nearby colleges and universities joined the national seminar to make the event successful. The program was coordinated by Dr Bishnu Prasad Kar and Dr Sujata Mallick. The formal vote of thanks was given By Dr Tarun Kumar Sahoo.

On 4th December 2023, PG students of the chemistry department attended the 3rd OCS one-day extended lecturer series 2023 at KIIT University Bhubaneswar and also visited the

Central research facility of the university where the students were exposed to different advanced research instruments

In the end, the department organized a farewell ceremony on 5th April 2024, in which the juniors arranged a memorable party for the final-year students. The Principal, Head of Department and other staff members of the department were also present during the event.

The main aim of our department is to produce knowledgeable and skilled graduates and post-graduates who are ready to apply their acquired knowledge and skills during the college period and face the world.

Activities – seminars, functions and study tours. Related information on different activities has also been shared on the Facebook page of the department “Chemistry Department, Govt. Science College Chatrapur”, and the link to the page is <https://www.facebook.com/profile.php?id=100063466429654&mibextid=JRoKGi>.

Achievements – Mamata Kumari Muduli secured 85% mark and occupied 9th rank in the UG Chemistry(Hons.) examination 2023-24 held by Berhampur University. Five students in our department have joined different IITs, colleges and universities for their postgraduate courses.

1. Krushna Chandra Behera, IIT ISM Dhanbad
2. Mamata Kumar Muduli and Rakesh Pradhan: Berhampur University
3. Simran Sahu, Khallikote Unitary University
4. Mamata Nahak, Binayak Acharya College Berhampur
