Date	24.12.2024			
Theme				
Number of Participants	Male:25	Female:29	Total:54	
Name of the Resource Person/ Trainer/ Guests	<ul style="list-style-type: none"> • Dr. Ajay Kumar Tripathi, Principal, Govt. Science College, Chatrapur • Benu Gopal Mohapatra • Niranjan Tripathy • Chinmay Kumar Panigraphy • Ashok Kumar Ray 			
Objective of the Meeting/ Seminar /Workshop/Event	<p>A career counselling programme on technical education was organized for intermediate students with the objective of guiding them towards informed career choices in the field of technical and vocational studies. The session aimed to create awareness about various diploma and degree programmes available in engineering, technology, applied sciences, and skill-based trades.</p>			
Discussion Points	<p>Experts and faculty members provided insights into course structures, eligibility criteria, admission procedures, and potential career opportunities in both public and private sectors. The importance of technical education in today's rapidly evolving job market was emphasized, along with information on government initiatives, scholarships, and industry-linked training programmes. Students were encouraged to align their interests and strengths with suitable technical pathways, and an interactive Q&A session helped address individual queries and concerns, making the event highly informative and impactful.</p>			
Action Taken	<p>Interactive sessions were held to allow students to clarify their doubts, and informational brochures were distributed for further reference. Feedback from students indicated a high level of interest and engagement, with many expressing increased clarity about their career paths.</p>
