Discussion Points	<p>On the occasion of Environment Day 2025, a Tree Plantation Programme was successfully organized by Government Science College, Chatrapur on 17.09.2025 at three locations—the college campus, Badabandha, Kanamana Gram Panchayat, Kanamana Campus and Coast Guard Tank, Matikhala. The programme aimed to promote environmental awareness and encourage active participation in creating a greener and healthier ecosystem. Following the inaugural session, the plantation drive commenced with enthusiastic participation from students, NCC, YRC, NSS volunteers, and staff members. Various types of saplings such as neem, banyan, mango, and other indigenous plants were planted across the college campus. The programme then extended to Kanamana Gram Panchayat, Kanamana Campus and Coast guard tank, matikhala, where a similar plantation drive was carried out in collaboration with local authorities and community members. Students actively engaged in digging pits, planting saplings, and watering them, demonstrating their commitment to environmental stewardship. Awareness messages regarding the importance of trees in combating climate change, improving air quality, and maintaining biodiversity were also shared during the event.</p>
